

INTRACARE MEDICAL CENTER HOSPITAL PARKING

Important information about parking: The company that manages the property around IntraCare Medical Center has guidelines about where you may park when you attend a presentation at IntraCare Medical Center.

IntraCare only controls parking spaces posted as hospital visitor parking; the property management company controls all other parking spaces and failure to abide by their rules may result in your car being towed.

A map of available parking is on page 2; please note:

EVENT PARKING LOT: This is a small parking lot (20 spaces) on the **EAST** side of the parking garage. There is no charge to park in this lot and there will be signs posted stating "IntraCare Event Parking". The easiest access to this parking lot is from Knight Road but it is accessible from Fannin as well.

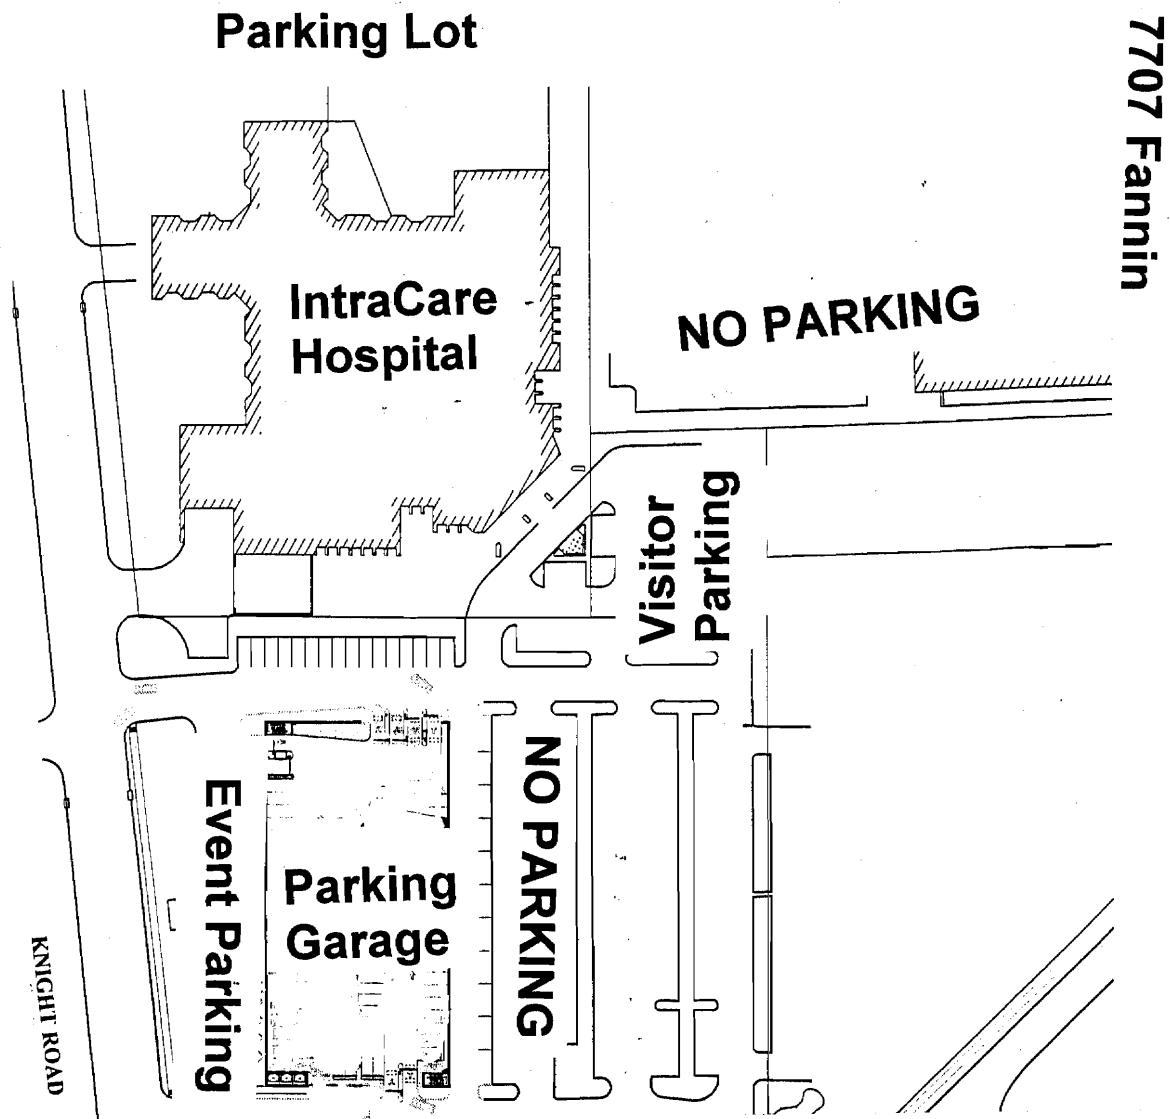

PARKING LOT: This is a parking lot **behind** the hospital and is accessed by entering the parking lot in front of the brown brick building, 7707 Fannin. It is necessary to drive through the 7707 parking lot to access this lot. No charge.

VISITOR PARKING: The hospital does have a small number of visitor spaces assigned to it in front of the hospital. While you may park here, our preference is you use one of the other options so that our patients and their visitors have easily accessible parking.

PARKING GARAGE: You may park in the garage – the charge is \$6.00. Please note that most of the spaces on the lower two levels are marked "reserved". Your car will be towed if you park in a reserved space.

NO PARKING: You may ***NOT*** park in either of these lots. The small parking lot **WEST** of the parking garage is reserved for customers of Chase Bank only. The lot in front of 7707 Fannin is for individuals who have business in that building. Your car may be towed if you park in either of these lots.

The property management company will ask its security personnel to be available to help direct you to the approved parking locations the day of the presentation.
